ORGANIC FERTILIZER

JANGAL

Complete Nutrition, Sustainable Growth

PRODUCT INTRODUCTION

Jangal is a natural liquid organic fertilizer made from processed plant- and animal-based organic materials. It is rich in amino acids and beneficial nutrients. By improving soil structure and nutrient uptake, it supports healthier plant growth, higher yields, and better crop quality.

PRODUCT FEATURES

Rich Source of Organic Matter
Improves soil fertility

Stronger Root Growth
Improves water and nutrient uptake

Greater Plant Resilience
Helps plants withstand diseases and stress

Improved Growth and Yield
Enhances crop quality and productivity

Environmentally Friendly
Designed to be gentle on soil and plants

Easy to Apply
Suitable for irrigation systems and foliar spraying

AVAILABLE PACK SIZES

10 kg bucket

10 L canister

1 L bottle

A Smart Choice for Sustainable Agriculture

AROMAADD
GENERAL TRADING COMPANY

Specialized Supplier of Agricultural Fertilizers and Plant Growth Enhancers

BENEFITS OF
JANGAL ORGANIC FERTILIZER

08 Suitable for Many Crops

For vegetables, fruits, cereals, field crops, and orchard crops

01 Stimulates Vegetative Growth

Promotes shoot growth and greener leaves

07 Improved Nutrient Uptake

Helps plants absorb nutirients from the soil more effectively

06 Greater Plant Resistance

Supports plant defenses and helps reduce pest and disease damage

02 Stronger Root System

Encourages lateral root growth and improves plant establishment

05 Better Crop Quality

Helps improve produce quality, flavor, color, and shelf life

04 Higher Yield

Supports fruit number and size for improved crop yield

03 More Flowering

Supports flower formation and may increase flower numbers

JANGAL organic fertilizer provides plants with balanced nutrition through natural organic ingredients.
