MADE-TO-ORDER SUPPLY Product selection and coordination based on required construction, weight, dimensions and intended use.	WHOLESALE & EXPORT Order consolidation, packaging coordination and shipment preparation for domestic and overseas buyers.

Circular Knit Fabrics

پارچه‌های گردباف

A key focus of our textile supply activity is circular-knit fabric for mattress and pillow manufacturing. We coordinate single-side and double-jacquard fabric options, with specifications developed around the buyer’s product requirements.

Typical application: mattress and bedding production. Available constructions, weights, colours and designs are discussed and confirmed for each order.

Quality documentation and available laboratory test information can be shared with customers upon request.

From Production to Destination

از تولید تا مقصد

We coordinate the supply journey around the order: understanding requirements, selecting suitable products, working with production partners, following quality, preparing packaging and coordinating dispatch.

The exact production, inspection, packaging and shipping arrangements are confirmed according to product type, order volume and destination.
